

Artist: **Going**

Title: **I**

*Immediate opacity.  
Latent take-off.*

*The music of 'I' impresses for it's ability to reach unheard powers without ever falling into violence or explosion.*

*Electronic hacks, crushed, mistreated keyboards, rhythms pushed to their limits, opiate loops saturate the space and converge towards the same goal:*

*the great urban trip, to be heard laying horizontally, while passing out.*

*Stuff to make your brain dance. And hum*
