Made by two unedited takes of completely improvised music, *Lift Your Toes* marks a step further by Mulabanda towards a more extreme musical output.

Alter-ego of a future release, this album's aggressive and more rhythmical approach matches what will be its atmospheric counterpart, *Spread Them Out*, due for 2014.

A journey through raw and uncompromising sound research, full of depth and power, the two takes cover each one a side of the vinyl and sound as good as they can get with the high quality of the recording perfected by Rashad Becker's superb vinyl mastering techniques.

Lift Your Toes is a collaborative release by QuintoQuarto and Silent Water, available in limited amount of 444 hand-numbered copies.
